

Delaware learner permit · general-purpose practice record

Permit hold: 6 mo

Totals this sheet			
-------------------	--	--	--

I certify the practice hours recorded above reflect supervised driving completed under Delaware learner-permit rules.

Supervising adult: _____ Date: _____

General-purpose practice log provided by DMVDrivingLog.com — an independent app, not affiliated with, endorsed by, or connected to any state DMV or government agency. This sheet is a personal record and may not be the document your state requires for submission. Confirm the current official requirements and any required form with your state's DMV before your driving test.

SKIP THE PAPERWORK

Stay on track for your license. Log every Delaware drive on your phone.

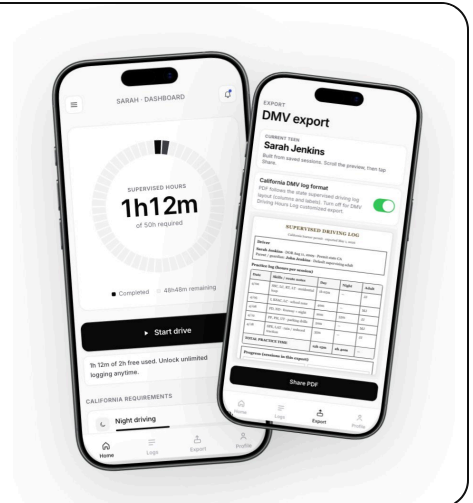

Start a drive and the app records the time, route, conditions, and supervisor for you. No more adding up hours by hand or losing the sheet before your test. Pick the date you want your license and it builds a weekly plan to hit Delaware's 50 hours on time.

Scan to get the free app

1. Open your phone's camera.

A weekly plan you can stick to

See this week's hours against your goal and whether you're on track. Optional reminders nudge you to get your next drive in.

Built for Delaware

Delaware's 50 supervised hours (including 10 at night) are loaded for you, with progress tracked automatically.

Every hour counted

The timer keeps running when you switch to Maps or lock your phone, and night hours are detected automatically from local sunset.

DMV-ready export

Export a finished, itemized PDF of every drive, ready for your records or the DMV.
